Education

2016 – 2021 **PhD**, *Department of Aerospace Engineering*.
Indian Institute of Technology Kharagpur, Kharagpur, West Bengal -721302, India

CGPA: 8.00/10

2010 – 2015 **Dual Degree (B.Tech + M.Tech)**, *Department of Aerospace Engineering*.
Indian Institute of Technology Kharagpur, Kharagpur, West Bengal -721302, India

CGPA: 7.06/10

2008 **Higher Secondary Examination**, *Kiddy's Corner School*, Gwalior.
Mathematics, Physics, Chemistry, English, Physical Education

Percentage: 75 %

2006 **Secondary Examination**, *Kiddy's Corner School*, Gwalior.
Mathematics, Science, Social Science, English, Sanskrit

Percentage: 77 %

Research Interest

Materials: Laminated, Sandwich, and Functionally Graded Material (FGM)

Structures: Curved and folded structures

Methods: Analytical, Finite element analysis (FEA) and Isogeometric analysis (IGA)

Analysis: **Bending analysis** – Stress calculation; **Dynamics analysis** – Free Vibration, Transient, Steady-State; **Buckling analysis** – Linearized buckling, Post-buckling, Nonlinear buckling with/without imperfection; Analysis under hygrothermal enviornment

Skills

Programming: C, C++, Python, MATLAB, Mathematica, R, CLISP

Scripting: Latex, HTML,CSS, JavaScript, PHP, MySQL, React, ReactNative

Tools: LyX, Inkscape, Git, GitHuB, Photoshop, Blender

Package: ANSYS

Platform: Windows, Linux (Ubuntu, Fedora)

Professional Experience

Toronto Metropolitan University

Nov, 2022 – Present
Post-Doctoral Research Fellow, *Department of Mechanical and Industrial Engineering*, Toronto Metropolitan University, Toronto, Ontario, Canada.
Finite element analysis of rotating structures under thermal environment.

Advisor: Dr. Donatus Oguamanam (*Website*)

Punjab Engineering College

27, July, 2022 – Present
Assistant Professor on contract, *Aerospace Engineering Department*, Punjab Engineering College, Chandigarh, India.
My responsiblity includes performing administrative responsibility, research work, and teaching to both under gradate and post-graduate student in the aerospace engineering department.

Indian Institute of Technology Kharagpur

July, 2016 – Nov, 2021
Teaching Assistant during PhD, *Department of Aerospace Engineering*, Indian Institute of Technology Kharagpur, Kharagpur, West Bengal, India.
Teaching assistant in various undergraduate courses: Finite Element Methods, Aerospace Structure, Mechanics, Aerospace Structure, and Structure laboratory

Instructor: **Prof. B. N. Singh, Prof. D. K. Maiti, Dr. M. K. Laha, Dr. Mira Mitra, Dr. Anup Ghosh, and Dr. Akshay Prakash** (*Website*)

July, 2014 – May, 2015
Teaching Assistant during Dual Degree, *Department of Aerospace Engineering*, Indian Institute of Technology Kharagpur, Kharagpur, West Bengal, India.
Teaching assistant in two undergraduate courses: Mechanics and Engineering Drawing

Instructor: **Dr. M. K. Laha, and Dr. Anup Ghosh** (*Website*)

Research Experience

Toronto Metropolitan University

Nov, 2022 – Present
Post-Doctoral Research Fellow, *Department of Mechanical and Industrial Engineering*, Toronto Metropolitan University, Toronto, Ontario, Canada.
Finite element analysis of rotating structures under thermal environment.

Advisor: Dr. Donatus Oguamanam (*Website*)

Indian Institute of Technology Kharagpur

15, Dec, 2022 – 25, July, 2022
Research Intern.
Worked on structural modeling and analysis of bending and buckling analysis of multilayered composite structures using Deep-Learning.

Advisor : **Dr. Pawan Goyal** (*Website*)

July, 2016 – Non, 2021 **PhD Thesis**, *Nonlinear Bending and Buckling Analysis of Laminated and Sandwich Curved Panels in Hygrothermal Environment*.
Geometrically nonlinear finite element model is developed for the bending and buckling analysis of multilayered composite curved panel under hygrothermal envioronment.
A generalized C0 finite element model is formulated and coded into MATLAB for nonpolynomial shear deformation theory (NPSDT) incorporating both von Karman and Green-Lagrange nonlinearity.
Predicted the bending response of curved composite panel using inverse hyperbolic shear deformation theory (IHSDT) and third-order shear deformation theory(TSDT).
Linear buckling, post-buckling, and nonlinear buckling response subjected to mechanical in-plane load and thermal load is analyzed extensively.
Navier type analytical and 3D elasticity results are also obtained for composite plates and panels to validate the accuracy of present FEM results.

Advisor : **Prof. B. N. Singh** (*Website*) and **Prof. D. K. Maiti** (*Website*)

July, 2014 – May, 2015 **M.Tech Thesis**, *Development of Flat Shell Element*.
Developed MATLAB program for flat shell element using superimposition of in-plane and bending effect.
Analyzed Standard Benchmarked problems using developed four noded quadrilateral flat shell element.

Advisor : **Dr. Anup Ghosh**, *Associate Professor (Website)*

July, 2013 – May, 2014 **B.Tech Thesis**, *Free Vibration and Buckling Analysis of Beam and Plate Structure*.
Developed MATLAB program to find natural frequency and mode shapes of beams and plates.
Developed MATLAB program to find critical buckling load for beam and plates under different boundary conditions.

Advisor : **Prof. P. K. Datta** *(Retired)*

Patent

Filled **A holder for stirrer**, Inventor: Rabindra Prasad; Co-Inventors: Harikishor Kumar, Parshant Kumar, Abha Gupta, and Surendra Verma. Application No. 202211036036

To be filled **Fabrication of Low-Cost Localized Metallic Foam via Friction Stir Processing**, Inventor: Rabindra Prasad; Co-Inventors: Harikishor Kumar, Parshant Kumar, Abha Gupta, Surendra Verma, and Nitesh Kumar Sinha.

Publications

Journal Articles

2022 Abha Gupta, Surendra Verma, and Anup Ghosh. Static and dynamic NURBS-based isogeometric analysis of composite plates under hygrothermal environment. *Composite Structures*, volume 284, page 115083. Elsevier BV, mar 2022.

2021 Surendra Verma, Babu Ranjan Thakur, B.N. Singh, and D.K. Maiti. Geometrically nonlinear flexural analysis of multilayered composite plate using polynomial and non-polynomial shear deformation theories. *Aerospace Science and Technology*, volume 112, page 106635. Elsevier BV, may 2021.

2021 Babu Ranjan Thakur, Surendra Verma, B.N. Singh, and D.K. Maiti. Geometrically nonlinear dynamic analysis of laminated composite plate using a nonpolynomial shear deformation theory. *International Journal of Non-Linear Mechanics*, volume 128, page 103635. Elsevier BV, jan 2021.

2021 Babu Ranjan Thakur, Surendra Verma, B.N. Singh, and D.K. Maiti. Dynamic analysis of flat and folded laminated composite plates under hygrothermal environment using a nonpolynomial shear deformation theory. *Composite Structures*, volume 274, page 114327. Elsevier BV, oct 2021.

2020 Babu Ranjan Thakur, Surendra Verma, B.N. Singh, and D.K. Maiti. Dynamic analysis of folded laminated composite plate using nonpolynomial shear deformation theory. *Aerospace Science and Technology*, volume 106, page 106083. Elsevier BV, nov 2020.

In Conference Proceedings

2019 Babu R. Thakur, Surendra Verma, Bhrigu N. Singh, and Dipak K. Maiti. Dynamic analysis of laminated composite plate using non-polynomial shear deformation theory under hygrothermal environment. In *AIAA Scitech 2019 Forum*. American Institute of Aeronautics and Astronautics, jan 2019.

Short Term Courses/ Webinar Attended

NIT Warangal, Dept. of Mechanical Engineering

Nov, 11 – 15, 2019 **GIAN Course on Isogeometric analysis (IGA): Basis and Advanced Application**.
Lecture was delivered by the pioneer of Isogeometric Analysis, Prof. A. Reali of the University of Pavia, Italy.
Learned the nuances of the advanced Isogeometric Analysis approach.
Awarded Grade B.

IIT Hyderabad, Dept. of Civil Engineering

Feb, 19 – 21, 2020 **Short course on Nonlocal Mechanics Approaches for Modelling Localized Deformations (NMAMLD)**.
Lecture was delivered by the Prof. J. N. Reddy of the University of Texas, College Station, USA.
Learned about the basic of the non-classical continuum to model the mechanics of the nano structures.

Awards/ Honors/ Fellowships/ Recognitions/ Contribution

Reviewer of peer reviewed SCI journal: Mechanics of Advanced Composite Structures (*Website*)

2016-2021 MHRD fellowship during PhD program

2014-2015 MHRD fellowship during Dual Degree program

Position of Responsibility

April, 2013 – July, 2015 **Website Coordinator of Department of Aerospace Engineering for 3 years**.

Jan, 2013 – May, 2015 **Website Head of RK Hall of Residence for 2 year**.

July, 2012 – May, 2013 **Mess Auditor and Vice-Captain of Illumination of RK Hall of residence for 1 year**.

27, Jan, 2012 – 30, Jan, 2012 **Sub Head of Annual Techno Management Fest of IIT Kharagpur in 2nd year**.

Internships and Projects

May, 2013 **Summer Intership**, HAL Kanpur.
Gained experience about the various manufacturing and testing of the different composite structural components.

Sept, 2013 **Trainee**, *Department of Aerospace Engineering*, IIT Kanpur.
Gained hand on experience on demonstration of stability modes such as phugoid mode, Dutch roll, stalling and controls of propeller aircraft Hansa-3.
Calculated centre of gravity, neutral point, maneuvering point, rate of climb and side slip coefficient for propeller aircraft Hansa-3 and Cessna.

July, 2014 – May, 2015 **Inventory Management Software**, *Department of Aerospace Engineering*, IIT Kharagpur.
Developed offline UI using PHP which allows lab in-charge to keep records of all issued items to students and allow modification to items data and user accounts.
Established system is currently handing data of 400 students in Aero modelling Laboratory, Department of Aerospace, IIT Kharagpur.

Jan, 2013 – March, 2013 **Mess Monitoring System**, *RK Hall*, IIT Kharagpur.
Developed Java Software using Swing which process and records inputs data through smart card.
Engineered input device to read QR code data using cam and convert it to input format to the software.
After successfully implementation, system able to cut costs by INR 210000 in a year

Jan, 2013 – March, 2013 **Library Management System**, *RK Hall*, IIT Kharagpur.
Designed an online user interface using PHP allowing user to list issued/reserved/available in hall library.
Established system was used by 630 students in Radhakrishnan Halls of residence, IIT Kharagpur.

Memberships

Aeronautical Society of India.

The institution of Engineers (India).

Extra-Curricular Activities

2022 **Sarathi Academy**, Developing free education material for students (*Website*).

2017 **Susamskar Foundation**, Working with Susamskar Foundation, an NGO, which instill the value education in the young minds (*Website*).
